

WE ARE INDENTA

For 50 years, Indenta group creates chemistry for a sustainable future offering value added products and service solutions to the pharmaceutical and personal care industry.

Indenta is a leading global provider of “integrated and adaptive solutions” for the life science, personal care and advanced technology industries. The group aims to create value through innovation, high earning power and growth. The company has an extensive global presence, exporting to more than 40 countries worldwide, and with offices & distributors in multiple countries.

BUSINESSES

PHARMACEUTICALS & BIOPHARMACEUTICALS

INDENTA enables customer to achieve success through innovation, by offering a comprehensive product range, from our cGMP manufacturing facility, which includes pharmaceutical grade Salts, Sugars, Buffers and services for drug discovery to clinical trials and production needs.

We are pioneers in manufacturing chemically pure Sodium Hydroxide Pellets & Potassium Hydroxide Pellets in India, under the brand name of “CALIRON”.

Collectively, we set science in motion to create a better world as our products and services are designed to benefit people and improve their quality of life.

PERSONAL CARE & HOME CARE

INDENTA, has grown manifold, in its manufacturing and distribution capabilities, product portfolio, and global reach through several strategic partnerships. Our persistence and endurance in providing high quality raw materials and services, has inspired us to produce and market superior quality raw materials for the personal care, home care and Flavor & Fragrance customers, around the world.

We extract, encapsulate and process Natural Essential Oils ensuring the potency retention of the volatile aromatic component.

QUALITY AND SUPPLY CHAIN SECURITY

Being an ISO 9001-2015 company, Indenta provides a systemic approach to setting up high and reliable standards in evaluating incoming Raw materials, Processing intermediates, Finished products, Packing materials, in order to sustain the quality of every product leaving our factory.

INDENTA has established procedures, intended to ensure that each product meets the customers defined quality criteria. We have the expertise in handling regulatory hurdles, conduct risk-based audits to understand the capabilities of our suppliers and to collaborate with them to promptly enforce corrective and preventive actions (CAPA), should they arise. Our team comprises of well groomed, dedicated and competent professionals.

OUR CUSTOMERS

Indenta, with five decades of experience in managing Fortune 500 companies keeps the interest of its customers at the helm in all its activities, has won confidence of a plethora of satisfied customers in Pharmaceutical, Fine & speciality chemicals, Personal Care and Flavor & Fragrances industries.

VISION

To be a leading provider of superior ingredients with proficiency in Innovation, Customer centric approach and commitment.

RESPONSIBLE CARE

Today our world is confronted with unprecedented challenges such as climate change, scarcity of natural resources, poverty, human health and safety issues. Our manufacturing facilities are environment friendly and certified as zero discharge units. Every stage of our operations presents an opportunity to eliminate waste. We are focused on finding ways to reduce, reuse or recycle and are dedicated to the sustainable health of our people and our planet.
