

## Consolidation Solutions Source & Outsource

Partner with us and combine all of your periodic procurement of low volume, low cost i.e. the C & D category products, into a highly responsive single procurement source, while retaining your complete control with a pre-approval framework and authorization.

### What we do

**Strategic Sourcing:** Through our extensive database and competitive intelligence, we create multiple supply options for every project to ensure uninterrupted supply even during supply shortages resulting in efficient and effective service level. We do everything from identifying the best supply options, to negotiate the most competitive number possible, ensure quality and due diligence.

**Creating Competitive Edge:** Leveraging our research driven approach, procurement can be used as a strategic accelerator to achieve cost savings, product innovation, diversified risks, access to new markets and increased revenue. Our services are used as an automated supplier management solution for most of the global sourcing needs of our customers.

**Quality assurance- Monitoring quality:** Quality assurance is "Planning centric" and focuses on the system as a whole ensuring that one does the right thing, the right way. We follow ISO 9001:2008 Quality System process, which is aligned to provide the best management service to our valued customers.

**Vendor Audits:** Our vendor audit service is aimed at customers that require enhanced traceability and quality confirmation of suppliers for their manufacturing process and are designed to increase customer's confidence through supplier validation.

**Regulatory Compliances & documentations:** We ensure complying with all mandatory documents including certificate of analysis, Material safety data sheets, technical data sheets, specification, Method of Analysis, Impurity profiles, Process flow charts, Bovine certificates, Microbial test, Batch release certificates, Food Safety data sheet, etc. We have relevant licenses and certificates pertaining to Pharmaceutical, Foods & Drug Administration, FSSAI, HALAL, etc.

### Facilitating finance- Flexible finance terms, customized options:

With Indenta, all payments can be streamlined and processed via a single platform, eliminating the need for multiple payees. We provide multiple payment options like L/C, D/P at sight, CAD and customized payment package as per the eligibility and need of the customer.

**Packaging flexibility:** Customizing packaging wherever needed to suit the requirement of the customer and ensuring proper labels containing information as per the guidelines of Globally Harmonised System (GHS) of Classification and Labelling of Chemicals. We can also provide IIP certificate based on the nature of the product.

**Logistic Support- Scheduling, just in time, stocking, monitoring shipments:** We pool shipments together to leverage underpin business process improvements that can have far-reaching impact in the supply chain. Converting less-than-truckload (LTL)/ loose container load (LCL) shipments to full truckloads (TL) helps companies optimize and reduce transportation costs, rationalize asset utilization, and provide better service to end customers. Companies can reduce freight transport costs anywhere between 20 to 35 percent by converting LTL/LCL to TL/FCL. By merging shipments and delivering more frequent volumes, we increase turns and reduce inventory.

**Easy accessibility - one point contact with dedicated team for customer support:** A library of key information is stored and maintained in our system to assist our customers with the latest and relevant support material. The knowledge management system is populated with individual customer content including customer specific product and services, Frequently Asked Questions, and Known issues.

**Experienced professionals:** We ensure an efficient, dependable service experience with a team of trained professionals behind you. With best-in-class expertise, processes and tools, Indenta delivers consistently high quality support to keep your people productive.
